Estimated Labour time: 30 minutes.

### Construction Method:

1. Separate the pole from the lamp base, and wrap the pole with Reflex Gold 260's.
2. Assemble the box and cut a small hole in the centre of the top panel. Place the lamp base in the box and cover with the sheet of printer paper (having cut a small hole in the centre) then pass the pole through the hole in the top of the box and screw into the base. Fill the box with white and Reflex Gold 5" balloons and white Tulle.
3. Wrap tulle around the outside of the box and tie a large bow, then add a cluster of 5" White and Reflex Gold as shown in the picture.
4. Inflate the 24" printed balloon with air to around 22", and the 24" Reflex Gold balloon to around 18 or 19". Tie into a duplet and wrap securely to the top of the pole.
5. Create the components below using the remaining latex balloons, stuffing the 12" Reflex Gold into the 12" Graffiti Frost. All 12" balloons are inflated to around 7" to 9", and all 5" to around 3" to 4". Exact sizes are not important. Pairs of clusters are joined by uninflated 260 balloons as shown.
6. Wrap the cluster with hearts into the duplet of 24" balloons arranging so the hearts are facing forward and the round balloon is at the back.
7. Add the other clusters, arranging the balloons as desired.
8. Finish with a Tulle bow and tails.

*This design can be created as a floating design, by helium filling the 24" balloons. The rest can still be filled with air. Fly on tulle from a weighted box.*
