

# Mini Christmas Tree

## Christmas

### Product Required:

5" Reflex Lime Green x6  
 5" Metallic Lime Green x6  
 5" Metallic Green x6  
 6" Fashion Lime Green Link-O-Loon x15  
 5" Reflex Crystal Red x18  
 Poinsettia Minishape x1  
 260 Crystal Clear x2  
 Balloon weight or festive pot for the base

### INFLATION GUIDE

Top layer: 3"  
 2nd layer: 3.5"  
 3rd layer: 4"  
 4th layer: 4.5"  
 Bottom layer: 5"

Estimated Labour time: 20 minutes

### Construction Method:

1. Inflate a cluster of 6 balloons to 5" each (3x Link-O-Loon and 3x standard round) and leave to one side.
2. Repeat step 1 but inflate the balloons to 4.5". Arrange the first cluster so the Link-O-Loons alternate with the round balloons, then place the second cluster on top, following the same colour pattern as cluster 1.
3. Repeat step 2 but inflate to 4", then continue with 2 more clusters inflated to 3.5" and to finish with 3". Ensure the spiral pattern is maintained throughout the design.
4. Create 15x mini duplets, by inflating a reflex crystal red 5" balloon to around 3" then let a small amount of air out. Tie the knot close the main part of the balloon, then with your thumb on the knot twist the balloon to create 2 smaller bubbles. Tie these mini duplets on the tips of the Link-O-Loons.
5. To complete the design inflate a poinsettia minishape foil, heatseal and tie on a scrap of 260 which can be used to attach on the the top of the tree.
6. Add in a weight to the bottom of the tree, or add a festive pot, like in the video on the decorator hub

*Try different colour combinations to coordinate with other decor*
