Estimated Labour time: 30 minutes.

Construction Method:

1. Start by stuffing the graffiti balloons with green and violet latex, then inflate and deflate a couple of times to stretch them so a nice round shape can be achieved. Inflate the double stuffed and stretched balloons to 10" and create 5x sets of quads.
2. Inflate 4x clusters of 4 5" balloons, sized to 3.5".
3. Squeeze the air out of a 260 balloon and tie around a cluster of graffiti print.
4. Stretch the 260 and use to connect the cluster of 5" Caribbean Blue in the Graffiti print.
5. Repeat the last step alternating graffiti and Caribbean Blue.
6. Inflate the foil number, Battle Royal foil and Llama with air, and tie a 260 around each nozzle.
7. Pull the 260 on the foil number around the base to lock in place, and repeat with Llama.
8. Inflate 2x 260 modelling balloons, leaving around 3" uninflated at the end. Wrap the first one around the number and twist to secure. Create 2 pinch twists with the leftover balloon. Repeat this with second 260 and then twist the 2 sets of pinch twists together to create a sturdy base for the foil, which can be wrapped in place.
9. To finish the design, inflate a bouquet of 5 foil balloons and attach to weight which can be wrapped into the graffiti balloons to secure and add stability to the entire design.
