Construction Method:

1. Inflate the 2 sitter balloons with air using a hand pump and attach a suitable weight underneath
2. Tie the 260 around the tail of the sitter, and use waste 260 to repeat on the other sitter.
3. Inflate 14x 6" Link-O-Loons and tie into a single long chain (shorten if needed for smaller arch), then tie each end in to the connection point created on the tail.
4. Inflate the Orz and tie a scrap of 260 around the nozzle, then find the centre of the chain and tie the Orz into it. (Add in a second Orz to create a flatter arch shape).
5. Position on table as required
