- BASE: 2x clusters of 4 12" fashion black @ 7"
- BASE: 2x clusters of 4 12" fashion black @ 6.5"
- ORBZ: 1x cluster of 4 5" fashion black @ 3"

Estimated Labour time: 50 minutes.

Construction Method:

1. Inflate the 12" duplets & add to the lamp stand in clusters of 4 with the largest at the base.
2. Inflate the 3 long chains of 14 Link-O-Loons and leave to the side.
3. Inflate the 14x chains of 3 Link-O-Loons to form the ribs of the hoop.
4. All nozzles & necks can be trimmed to create a neater overall look.
5. Lay the 2 chains of 14 (6.5") on table next to each other with the 3rd chain (4.5") on top.
6. Wrap the chains of 3 ribs around the outside of each connection point of the long chains and tie off the 2 ends to lock in place. **Be careful not to skip a connection**
7. As you move along the chain with the ribs, the circle will begin to form & when you reach the end, tie off the long chains to complete the shape.
8. Tie an uninflated black 260 with the air squeezed out into the top of the column section, then place the hoop on top & use the 260's to fix the hoop into place.
9. Using a piece stretchy balloon tape, attach an uninflated black 260 onto the back of the tombstone & tie into the clusters on the column.
10. Inflate the Orbz with helium, tie off with monofilament line then tie into the base section of the hoop so that it floats in the centre.
11. To finish, add cobwebs, bats, ravens, & anything else you wish to decorate the display with.
