

New Years

Designed By Chris Horne

Product Required:

1 x Airloonz Star Cluster Black & Gold 4246311
 21 x Sempertex 260 Reflex Gold 20014180
 21 x Sempertex 260 Reflex Silver 20014184
 Scraps of modelling balloon
 Stretchy Balloon Tape

Estimated Labour time: 15 minutes.

Construction Method:

1. Inflate the Airloonz and assemble according to the instructions in the packaging.
2. Using Stretchy balloon tape, tape one scrap of 260 balloon to the top point of the Airloonz, and another to the right hand point as shown by the position of the "fireworks" in the picture.
3. Inflate one of the Reflex Silver 260 balloons to about 8" in length. Tie. Pinch and stretch the uninflated tip of the balloon to soften it, then squeeze a little air up into the tip to create a "bobble".
4. Repeat with a second silver Reflex balloon, then tie the two together into a duplet.
5. Create 9 more duplets with the remaining 18 silver Reflex 260 balloons
6. Twist all the duplets together to form the firework. Ensure all the knots are in the centre of the firework.
7. Attach the firework to the Airloonz using the 260 scrap, as shown
8. Repeat steps 3 to 7 with the gold Reflex 260's to complete the design.
