 Scraps of 260  
 Balloon Bond, rubber cement or glue dots

Estimated Labour time: 15 minutes.

### Construction Method:

1. Inflate the four 12" Fashion White balloons with air, so that they measure 8" and tie into two duplets. Twist into a cluster of 4, or "quad".
2. Twist the quad around the neck of the balloon weight so that the weight is under the quad, and the tassel is on the top.
3. Inflate the 24" Fashion White balloon fully, then deflate.
4. Tie a 260 scrap several times to create a small "bobble" or "raisin". Drop this inside the 24" balloon.
5. Position the "raisin" in the very top of the 24" balloon, pinch it tightly through the balloon and tie a 260 scrap around it several times tightly to trap it in place. Make sure to leave the loose ends of the 260 scrap untrimmed.
6. Inflate the 24" balloon with air to measure approximately 20". Tie.
7. Tie the 24" balloon into the quad of 12" balloons, using its neck.
8. Create a cluster of 4 with the 5" Fashion white balloons inflated to 4".
9. Inflate the Foil Snowman Head balloon with air, then wrap the neck through and around the quad of 5" balloons several times so that the quad is tightly and firmly secured under the head.
10. Attach the head to the body by wrapping the loose ends of the 260 scrap on top of the body through the quad of 5" balloons under the foil. Ensure it's tight and secure.
11. Inflate 1 of the 5" Fashion black balloons fully, then deflate to 3". Tie. Push the knot all the way through the balloon and grip it from the other side, twisting the balloon to trap the knot. Secure by tying a 260 scrap around the knot. Trim the ends. Squeeze to make a good shape. This is an "Apple Twist".
12. Make 2 more and stick them to the front of the body with your preferred adhesive.
13. Make 2 arms with the Black 260 balloons, each with a tulip twist in the end. Stick these to the sides of the body with your preferred adhesive.
