Construction Method:

1. Stretch open the neck of one of the 12" Crystal clear balloons with the stretching tool and drop a small "blob" of gold acrylic paint inside, followed by another blob of Hot pink. Keep the paint out of the necks of the balloons. Remove the tool and gently spread the paint a little, but not so much as the colours mix.
2. Double stuff this balloon with a 12" fashion white balloon, sandwiching the paint between the two layers of balloon.
3. Repeat this with the other 12" clear and white balloons, and also with the 5" clear and white balloons.
4. Inflate the two 12" painted and stuffed balloons with air to 10", then downsize to 7". Tie into a duplet. Create another duplet with the 12" Reflex Gold balloons to the same size and wrap into a cluster of 4. Wrap this cluster around the neck of the balloon weight.
5. Create another cluster of 4 balloons using 2 of the 5" painted and stuffed balloons and 2 x 5" reflex gold, this time inflated to 3".
6. Attach the small cluster to the large by pulling the neck of one of the 12" Reflex gold up through the centre of the smaller cluster and wrapping around several times to create the base.
7. Create a "curly" with the Reflex Gold 260 (wrap the uninflated balloon around a cylindrical object, then inflate) and tie into the centre of the base.
8. Inflate the Marblez Orbz with helium, and tie to gold curling ribbon. Set aside.
9. Create a final cluster of 4 balloons with the remaining painted and stuffed 5" and reflex gold 5", inflated to varying sizes between 2" and 3". Wrap onto the neck of the Marblez Orbz, securing with the curling ribbon.
10. Twist a bubble into the end of the Reflex Gold Curly and wrap through the cluster under the Orbz. Ensure it is secure by wrapping the curling ribbon around. Curl the ribbon ends.
11. Finish by adding the gold foliage sprays where desired, securing in place with glue dots or balloon bond.
