- 5 x Sempertex 5" Satin Green 20002015
- 5 x Sempertex 5" Satin Lilac 20002019

- 1 x Gold foil balloon weight 991365-19
- 1 x 260 balloon for tying

Estimated Labour time: 10 minutes.

#### Construction Method:

1. Create a 5-balloon cluster with the Reflex Stars balloons, inflating them to 5". Over-inflate the balloons, then downsize to 52, squashing them until they are round. Make 2 duplets, add the 5th balloon to one of the duplets, then twist together to form the cluster.
2. Repeat with the Satin Pink balloons, inflated to 4".
3. Repeat with the Satin Lilac balloons, inflated to 3".
4. Repeat with the Satin Green balloons, inflated to 2"
5. Tie the closed end of the 260 tightly around the neck of the weight.
6. Wrap the Cluster of Gold Stars balloons tightly around the neck of the weight.
7. Pull the 260 up through the centre of the gold cluster, nestle the Pink cluster on top so the balloons fit in the gaps in the previous cluster, then wrap the 260 around 2 of the Satin Pink balloons to secure. Keep tension on the 260 the whole time to make the balloons sit flat.
8. Add the Satin Lilac cluster in the same way.
9. Inflate the foil balloon with air, then wrap the cluster of Satin Green balloons tightly around the neck of the balloon so they sit firmly against the balloon itself.
10. Sit the cluster of Satin Green balloons on top of the Satin Lilac balloons and secure it by wrapping the 260 around several times, keeping the tension constant.
11. Cut off any excess 260.
